COMPANY OVERVIEW

Pro-Rig Trading Enterprise is a leading specialist in rigging and lifting solutions, with over 20 years of industry experience delivering safe, reliable, and compliant services across various sectors. Our extensive expertise enables us to provide high-quality rigging equipment, inspections, load testing, and certification in line with statutory and industry requirements.

We are a Level 2 B-BBEE-compliant company, committed to transformation, skills development, and inclusive economic growth. Through our focus on quality, safety, and empowerment, Pro-Rig Trading Enterprise continues to build strong, long-term partnerships while delivering operational excellence and trusted lifting solutions.

CORE PILLARS

Expertise

Specialized knowledge and experience in rigging and lifting operations.

Safety

Unwavering commitment to safety in all operations and practices.

Services

Comprehensive range of rigging and lifting solutions.

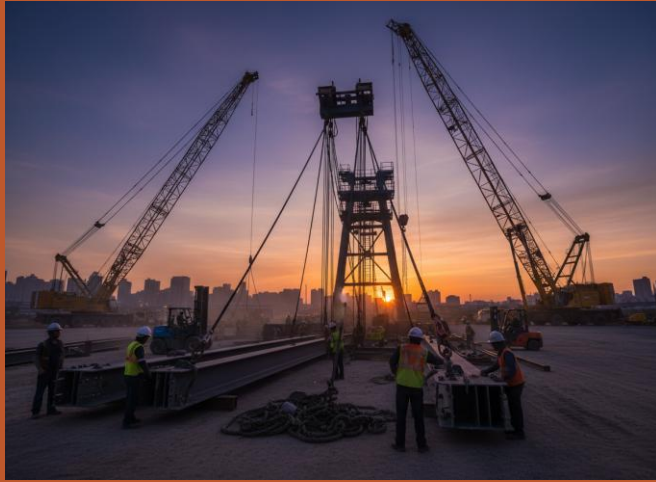

People

Skilled and dedicated professionals committed to excellence.

 Founded: 2005

 Locations: South-Africa, Botswana & Lesotho

CORE SERVICES PORTFOLIO

Our Service Approach

We combine technical expertise with safety excellence to deliver comprehensive solutions for all your rigging and lifting needs.

- ✓ Safety First
- ✓ Technical Excellence
- ✓ Client Satisfaction

Life Line & Fall Protection Systems

We design, supply, install, inspect, and certify horizontal and vertical lifeline systems for the safe working at heights. Systems are engineered as fall restraint or fall arrest, depending on the application, roof structure, and user requirements. Systems are installed as per OSHA and applicable SANS standards, including SANS 50795 (anchor devices and lifelines)

Specialized Rigging

We handle machinery moves, construction erections, maintenance work, long-term projects, and shutdowns. Each rigging team includes a Red Seal Rigger and an assistant. We can provide full rigging studies, method statements, and equipment to ensure every project is completed safely, efficiently, and on time. Our services support the chemical, oil and gas, processing, power generation, renewable energy, and infrastructure sectors

Load Testing & Inspection

Comprehensive load testing services to ensure equipment integrity, safety compliance and operational efficiency.

Supply of Rigging Equipment

Supply of Rigging & Lifting Equipment as per your requirements and specification.

PROFESSIONAL & SPECIALIZED RIGGING SERVICES

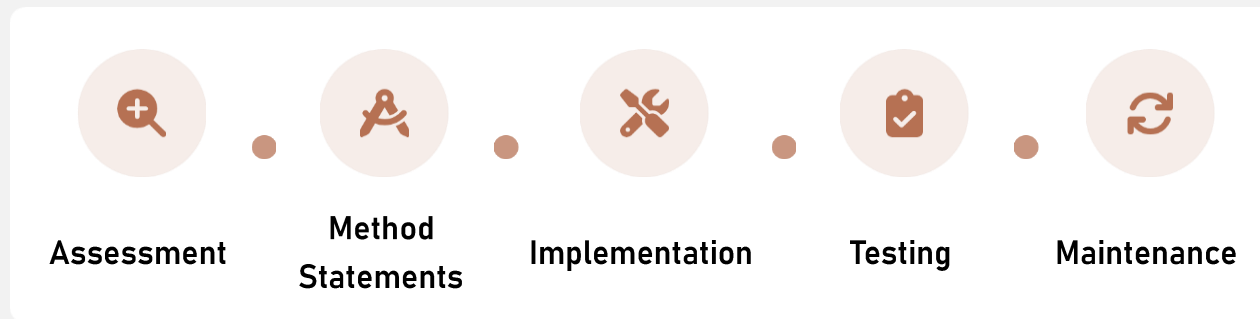

"KEEP CALM AND TRUST OUR RIGGERS"

- ✓ **Rigging Studies:** Comprehensive planning for complex lifts.
- ✓ **Method Statements:** Detailed safety protocols for every project.
- ✓ **Competent Teams:** Each crew led by a verified, certified competent rigger with semi-skilled assistants.
- ✓ **Efficiency:** Timely and cost-efficient execution of maintenance and erections.

SERVICE EXCELLENCE & EXPERTISE

Complete Lifecycle Support

Unwavering Commitment to Safety

- ✓ Industry-leading safety protocols and standards
- ✓ Experienced and verified certified personnel
- ✓ Continuous improvement in safety practices
- ✓ Comprehensive approach to operational excellence
- ✓ ISO Certified Systems for Quality and Safety

OUR MISSION

Delivering exceptional safety, efficiency, and reliability through specialized rigging and lifting solutions.

Professional Certification Lifting Machine Entity

We are a registered member of ECSA and an approved Department of Labour service provider authorized to perform the load testing and certification of rigging and lifting equipment. This approval confirms that all inspections, tests, and certifications are conducted in full compliance with applicable legislation, industry standards, and safety regulations.

Our services ensure that rigging and lifting equipment is safe, reliable, and fit for purpose, helping clients meet statutory requirements while minimizing operational risk. Through qualified personnel, approved testing procedures, and accurate certification, we demonstrate our commitment to workplace safety, technical competence, and regulatory compliance.

INDUSTRY RECOGNITION & ACCREDITATIONS

Safety and Quality Management System

ISO 9001 – Quality Management System

ISO 9001 is the global standard for quality management. It provides a structured framework that ensures our products and services consistently meet customer and regulatory requirements. By implementing ISO 9001 principles, we focus on customer satisfaction, continual improvement, risk-based thinking, and efficient process management across all areas of our operations.

ISO 45001 – Occupational Health and Safety Management System

ISO 45001 sets out best practices for managing occupational health and safety risks. It enables us to proactively identify hazards, reduce workplace risks, and create safer and healthier working conditions for employees, contractors, and other stakeholders. This standard demonstrates our commitment to protecting people, preventing work-related injuries and ill health, and complying with legal and regulatory requirements.

Our Commitment

Through the integration of ISO 9001 and ISO 45001, our company strengthens operational efficiency, enhances customer confidence, and promotes a strong safety culture. These standards guide our decision-making, improve performance, and reinforce our dedication to quality, safety, and continuous improvement.
